

Priority Partner Plans

Tailored Support for your Service

Priority Partner Plans are designed to lighten the load, providing you with professional, flexible support without the expense of recruiting. You 'pix and mix' from my services to suit your need.

Choose from *three* plans, each offering a predictable monthly investment with greater savings compared to ad-hoc hourly support.

Why choose a Priority Partner Plan?

- **Quality and Governance Support**

Strengthen your service with tailored assistance in audits, compliance, and governance processes.

- **Critical Friend Guidance**

Honest, constructive feedback to tackle challenges, empower your team, and drive improvement.

- **Leadership Well-Being**

One-to-one *Rant & Reset* sessions, providing a space to offload, refocus, and stay motivated.

- **In-House Training**

Use your plan hours for tailored, impactful training sessions that upskill your team without additional costs.

- **Engaging Conversations**

Make meetings more effective with *Talk & Transform* sessions, designed to inspire actionable change and team collaboration.

- **Operational Insights**

Gain discreet, actionable feedback with the *Mystery Caller* service and use key *stakeholder surveys* to gather, analyse, and act on feedback that supports meaningful service improvements.

- **Communication Support**

Strengthen communication with external stakeholders and maintain high standards with professional report writing and newsletter design services.

- **CQC-Related Support**

Assistance with *Factual Accuracy Checks*, *Fit Person Interview* preparation and *notification* support to help navigate key regulatory processes.
